### INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.	
PCT/US04/24955	

Box No. I Basis of the report
1. With regard to the language, this report is based on:
the international application in the language in which it was filed.
a translation of the international application into, which is the language of a translation furnished for the purposes of:
international search (under Rules 12.3 and 23.1(b))
publication of the international application (under Rule 12.4(a))
international preliminary examination (under Rules 55.2(a) and/or 55.3(a))
2. With regard to the <b>elements</b> of the international application, this report is based on <i>(replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report):</i>
the international application as originally filed/furnished
the description:  pages 1-48 as originally filed/furnished  pages* NONE received by this Authority on
pages* NONE received by this Authority on
the claims:  pages 49-62 as originally filed/furnished  pages* NONE as amended (together with any statement) under Article 19  pages* NONE received by this Authority on pages* NONE received by this Authority on pages*
the drawings:  pages NONE as originally filed/furnished  pages* NONE received by this Authority on pages* NONE received by this Authority on pages* NONE received by this Authority on pages*
a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing.
3. The amendments have resulted in the cancellation of:
the description, pages
the claims, Nos
the drawings, sheets/figs
the sequence listing (specify):
any table(s) related to the sequence listing (specify):
4. This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).
the description, pages
the claims, Nos
the drawings, sheets/figs
the sequence listing (specify):
any table(s) related to the sequence listing (specify):
* If item 4 applies, some or all of those sheets may be marked "superseded."

# INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

Form PCT/IPEA/409 (Box No. V) (April 2005)

International application No. PCT/US04/24955

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement							
1. Statement							
Novelty (N)		NONE	YES				
	Claims	1-118					
Inventive Step (IS)		NONE	YES				
		1-118					
Industrial Applicability (IA)	Claims	1-118	YES				
,		NONE					
2. Citations and Explanations (Rule 70.7) Claims 1-118 lack an inventive step under PCT Article catalyst composition prepared I the presence of a proceduracted with an unsaturated feedstock at a second to Claims 1-118 the criteria set out in PCT Article 33(4),	ess gas and fa mperature no	t composition at a temperature of at least 100°C; whi greater than 70°C producing a hydrogenated feedstoo	ch is then ck.				
made or used in industry.  Claims 1-118 lacks novelty under PCT Article 33(2) as being anticipated by US Pat. 4,696,911.  US'911 teaches a nickel-based catalyst composition prepared I the presence of a process gas and fat composition at a temperature of at least 100°C; which is then contacted with an unsaturated feedstock at a second temperature no greater than 70°C producing a hydrogenated feedstock.
